Dear Urszula

I am reaching out to you with a proposal for family mediation regarding the establishment of parenting contacts and guidelines concerning our daughter, Natasha Junker. I understand that our previous attempts to settle these matters may have been difficult and emotionally demanding for both of us, which is why I would like to suggest an alternative approach to resolving our disputes. Family mediation can be an effective tool in achieving understanding and resolving conflicts related to childcare. I am confident that together, with the support of an experienced mediator, we will be able to find a solution that is beneficial for our daughter and takes into account her best interests. I propose that we jointly agree on a meeting time with the mediator, who will assist us in conducting discussions and seeking compromises. I am open to discussion and cooperation in this regard so that we can collectively create a schedule of meetings and discuss any details related to mediation. Please consider this proposal and let me know if you would be interested in taking this step to find a mutually satisfactory solution. If you have any questions or suggestions regarding this process, please feel free to share them.

Best regards, Mariusz Junker
